

Materials & Resources Contributions

Taymor is committed to raising the bar in everything we do — including being mindful of the materials and resources we use in our exceptionally designed, high quality Door & Bath hardware solutions. Currently, several Taymor product collections contribute to a project's LEED certification, for Materials & Resources Credit 4–Recycled Content.

Recycled Content

MR CREDIT 4: 1-2 POINTS

Post-consumer Material

Waste material generated by households or by commercial, industrial, and institutional facilities in their role as end-users of the product, which can no longer be used for its intended purpose

Pre-consumer Material

Material diverted from the waste stream during the manufacturing process. Reutilisation of materials (i.e. rework, regrind, or scrap generated in a process and capable of being reclaimed within the same process that generated it) is excluded

Regional Materials

MR CREDIT 5: 1-2 POINTS

Use building materials or products that have been extracted, harvested, or recovered, as well as manufactured, within 500 miles of the project site for a minimum of 10% or 20%, based on cost, of the total materials value.

If only a fraction of a product or material is extracted, harvested, or recovered and manufactured locally, then only that percentage (by weight) can contribute to the regional value.

Bath Hardware

PRODUCT	COLLECTION	POST-CONSUMER RECYCLED CONTENT %*	PRE-CONSUMER RECYCLED CONTENT %	TOTAL RECYCLED CONTENT %*	TOTAL LEED RECYCLED CONTENT %	MANUFACTURING LOCATION
Wall-mounted Bath	1948 Round†, Suite & Simple®†	84%	15%	99%	91%	China
	1948 Square†	47%	15%	62%	54%	
	Allusion†	57%	10%	67%	62%	
	Arc Deco	42%	12%	64%	48%	
	Astral† (CANADA ONLY)	43%	10%	53%	48%	
	Bitter Suite†	83%	15%	98%	90%
