

1 	• Place the Door Stop mounting bracket over the desired location on the wall and mark positions for the anchors.
2 	• Drill two pilot holes in the marked positions in the wall.
3 	• Gently hammer the plastic anchors into the pilot holes until they sit flush with the wall.
4 	• Align the Door Stop mounting bracket with the anchors in the wall. • Use a screwdriver to tightly screw the mounting bracket in place.
5 	• Insert the cover through the door stop post. • To secure the cover on the mounting bracket, rotate cover until it clicks.
6 	• Place the rubber tip at the end of the post to complete the Door Stop installation.
